12-45-25

With reference to Government Order No L 108-110 dated the 23rd October 1945 according sanction to the creation of a post of a Store-keeper to the Trust Board on Rs 50-2-60 and to the appointment of Mr N Kempanna Store-keeper of the City Municipality as Store-keeper of the Trust Board in the above grade, I have the honour to state that at the time of receipt of the above Government Order the stock reserve limit was only Rs 50,000/- and the actual stock below this limit Now on account of increase in the number of the engineering works now in progress and the cost involved, there has been necessity to stock in stores materials worth to the extent of nearly Rs 75,000/- for prompt and regular issues to works or sales to contractors for use on works M S Bars and cement which are controlled and therefore not easily procurable by the contractors have to be purchased departmentally and always kept in stock In addition to this large quantities of Stone-ware Pipes and fittings and Hume Pipes etc , have to be always kept in stock Hence there has been absolute necessity to raise the stock reserve limit to Rs 75,000/- The Resolution of the Board approving of this has been already passed and separately communicated to the Government

The responsibilities and the work of the Store-keeper has thus been considerably increased Under these circumstances, it was proposed to increase his pay from Rs 50-2-60 to Rs 75-5-100 + Rs 15/- C A The subject was placed before the Board on 25th June 1947 The Board have sanctioned (vide Resolution No 599) a revised grade of Rs 60-4-80 + Rs 15/- C A , in view of the stock limit having been raised to Rs 75,000/- They have further resolved that the present incumbent Mr N Kempanna may be given a starting pay of Rs 60/- in the new grade from 1st July 1947 The work of this official is found to be satisfactory

The sanction of Government for the above Resolution of the Board may kindly be obtained and communicated early.

Sir,

Stock Reserve limit of the City Improvement Trust Board Office, Mysore

With reference to Government Order No L 12756-7/M1 12-45-33 dated the 16th May 1946, according sanction to the increase in the stock reserve limit of the Mysore City Improvement Trust Board from Rs 15,000/- to R 50,000/- temporarily for a period of two years i e , up to end of 1947-48, I have the honour to state that on account of increase in the number and the cost of the several engineering works under progress in the Trust Board, it has become necessary to keep in stock, for frequent issues or sales to Contractors large quantities of iron materials, S W Pipes and fittings and cement The limit of Rs 50,000/- already sanctioned has proved insufficient, as the value of stock on hand at end of May 1947 has gone up to Rs 61,306/- due to heavy purchases referred to above

Further quantities of the marginally noted materials have to be stocked for the use of the works on hand

1) Hume Pipes
2) S W Pipes & fittings
3) Cement
4) M S Bars

It will therefore be necessary to raise the stock reserve limit to R 75,000/- The matter was placed before the Board on 25th June 1947 They have resolved in Resolution No 598 to the effect that the stock limit may be raised to Rs 75,000/- and a cash security of R 1,000/- may be taken from the Store Keeper (copy enclosed)

Sir,

FROM N S HIRANNAYYA, Esq, M.A,
CHAIRMAN, CITY IMPROVEMENT TRUST BOARD,
MYSORE.

23 SEP 1947 Received

To SYED ABDUL ALLEM, Esq, B A,
SECRETARY TO THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE,
REVENUE DEPARTMENT, BANGALORE.

Subject:- Increasing the stock reserve limit of the City Improvement Trust Board, Mysore, from Rs.50,000 to Rs 75,000/-

---

With reference to your letter No L 9198 dated the 11th September 1947 I have the honour to state that no purchases of stoneware pipes were made during 1946-47 up-to-end of February 1947 as the contract had not been settled by the Stores Purchase Committee Hence the value of the available stock automatically reduced to a very great extent by issue of the existing stock for works and most of the underground works had to be postponed for want of materials

Immediately on receipt of the communication from the Secretary, Stores Purchase Committee, about the acceptance of the contract, orders were placed with the Firm for the supply of stoneware pipes and fittings and the materials arranged to be supplied from March 1947 At the same time the cement and iron were also supplied from the Iron & Steel Works, Bhadravati It is only on account of these facts the stock balance of Rs.29,000/- at the end of February 1947 immediately increased to Rs.58,663-13-7 at end of May 47

The following information is furnished as desired in your above letter -

1 Statement 'A' is enclosed showing the details of estimates for which materials costing Rs.50,000/- has already been purchased and the balance of materials costing Rs.72,515/- have to be purchased and Statement 'B' showing the materials to be purchased to the extent of nearly Rs.39,922/- for providing underground drainage to the unsewered areas in the City and additional purchases have also to be made for renewing the old mains whenever found necessary.

2 These works may take a number of years for completion The house connections and laying sub-mains will have to be undertaken every year as and when required Hence permanent stock of materials is absolute necessary

3 It is absolutely necessary to keep the stock limit of Rs.75,000/-

P T O.

as minimum, failing which it will not be possible to execute the work promptly and vigorously without sufficient stock of materials. In additional to these major works, the house connections in the City have to be taken up in a large scale every year as the main-lines are bei vided to almost all the unsewered areas and the work is already increasing as the Health Department is takeing strict action to improve the sanitation by launching prosecution cases against the house owners who fail to provide sanitary fittings The enclosed statement 'C' shows the increase of house connections in the City from year to year

In addition, large quantities of cement, Iron, C I pipes and fittings etc., have also to be stocked for the use of construction of cement concrete drains, model houses, septic tanks, surface drainage and other fresh works to be undertaken

Under these circumstances, the stock limit of Rs.75,000/- for which sanction is now sought for which itself would be insufficient may atleast be sanctioned as such for the present considering all the above facters

I therefore request that the sanction of Government may kindly be obtained to fix the minimum stock limit at Rs.75,000/- permanently in the interest of Government work and the same communicated at an early date to this office and to the Comptroller to Government of Mysore, to enable him to admit all the claims pending with him as the Firm have been frequently reminding this office for arranging payment as already intimated to you in my letter No A5 C 588/46-47 dated the 21st August 1947

An early sanction of Government is requested

I have the honour to be,
Sir,
Your most obedient servant,

Chairman.
